Why Now?

With the recent implementation of security measures, the life of the mariner has become more isolated. Shore leave, for both foreign and national seafarers, was always limited and worsened after 9/11. The life of a mariner is increasingly unattractive.

NAMMA members reach over a quarter million mariners each year. To better serve those who minister to mariners, we need to enact the programs proposed by NAMMA. We need to assemble the required resources of time, talent, and funding to implement these plans.

And we need to do it now, with your help.

Why Me?

If not you, then who? If a mariner touches your life, then you qualify. If you drive a car, wear clothes stamped "Made in China", eat wheat or corn from the heartland of the country, then your life has benefited from the work of the mariner. With your involvement in the maritime industry, the answer seems obvious.

Please consider supporting NAMMA with your time, talent, and financial resources. As leaders and change agents in the maritime industry, your involvement is critical.

There is no time like the present.
